

Feinberg Art Book 2023-2024

Northwestern University Feinberg School of Medicine

Dear Readers,

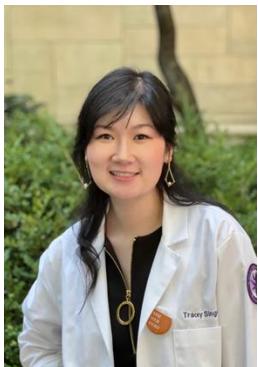

The Feinberg Art Book, which originated in 2019 under the initiative of medical student Tammy Hua, Class of '21, continues its journey in 2024. As a platform for showcasing the diverse talents of Feinberg medical students, this project seeks to amplify the voices of individuals who find solace and expression through art amidst the demands of medical education. With the release of its third edition, the Feinberg Art Book celebrates the myriad forms of creativity within our community, ranging from artwork and photography to written expressions.

As curators of this edition, we have been privileged to immerse ourselves in the intimate moments captured by our contributors. Each piece offers a unique window into the lives, experiences, and imaginations of our peers. Through this collection, we are reminded of the power of art to foster connection and empathy, qualities that are invaluable in the practice of medicine. As you peruse the pages of the Feinberg Art Book, we invite you to embark on a journey of exploration and introspection. May these artworks transport you to familiar memories and inspire you to discover new perspectives, enriching your experience of both art and medicine alike.

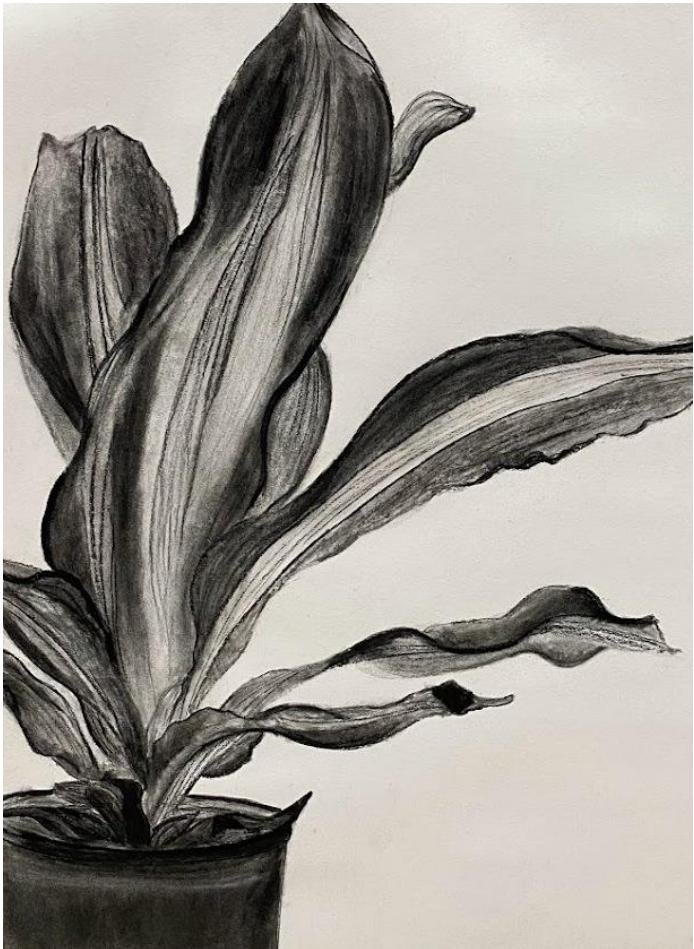

Thank You,

Ishani Majmudar & Tracey Singer

Northwestern University Feinberg School of Medicine

A special thank you to AWOME and all our friends and colleagues at Feinberg who made this collection possible.
